

RISKBAND WEARABLE DEVICES TAKE EMERGENCY RESPONSE AND COMMUNICATION TO THE NEXT LEVEL

THE RISKBAND SOLUTION

Everbridge and RiskBand ARIES have combined forces to empower your employees with state-of-the-art wearable safety and security devices fully integrated with Everbridge Critical Event Management Solutions. This purpose-built cyber-secure system provides for the retrieval and near real-time sharing of multiple streams of critical data with key emergency personnel and first responders.

+PUSH BUTTON ALERTING in case of emergency

- Immediate connection to a designated Global Security Partner (GSP) or to an organization's on-site Security Operations Center (SOC)
- Man Down and Hard Fall automatic alerting

+ENHANCED SITUATIONAL AWARENESS/IMPROVED RESPONSE TIME

- 2-way voice communication
- Time, date, and location-stamped images
- Precise geolocation
- Wearer profile

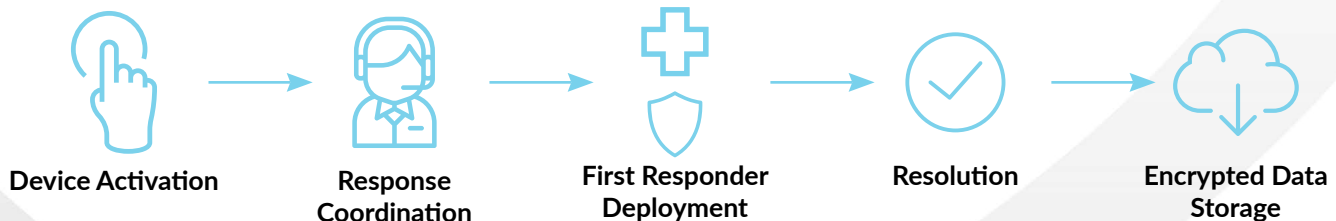

+EVIDENCE CAPTURE/STORAGE

- Encrypted storage of critical data points
- Voice recording

+SYSTEM INTEGRATION

- Everbridge Safety Connect™
- Emergency Action Messaging

Similar in size to a business card and weighing under 3 ounces when in its case, the 'untethered' device is not dependent upon a smartphone to function.
