

# LENEL ONGUARD CONNECTOR

## SAFETY CONNECTION™

The Lenel OnGuard Connector on the Everbridge Open Integration Platform as Service allows clients to integrate their Lenel OnGuard Access Control system with the Everbridge Safety Connection solution.

### WHAT YOU WILL BE ABLE TO DO

- + Automatically update contacts' Last Known Location in the Everbridge platform as employees badge into buildings.
- + Launch Everbridge Incident Communications workflows based on Lenel OnGuard Security events.
- + Map Readers and Buildings from a simple user interface.
- + Easily configure Lenel agents from a simple user interface without having to write any code.
- + Get a health check of the Lenel agents at a glance.

### KEY BENEFITS

- + Provides OnGuard with a voice
- + Quickly communicate with employees within buildings during emergencies based on their dynamic locations
- + Ensure the safety of employees and direct specific action
- + Setup rules for building alarms monitoring
- + Launch Incident workflows based on security events such as Fire Alarms, Forced doors, etc.
